|-------------------|--------------|------------------|--------------------------------------|----------------|
| DM | 36,446 | 7,606 | 575 | 7.5% |
| COPD | 7,194 | 2,015 | 162 | 8% |
| AMI | 1,248 | 554 | 191 | 34% |
| CKD | 2,189 | 330 | 33 | 10% |
| Total | 47,074 | 10,505 | 961 | 9.1% |

TO THE COMMUNITY

Community Engagement:

We held plenty of promotional and educational campaigns for tobacco hazard and smoking cessation in local communities, campus and workplace, totally 49 sessions with 4,922 participants in 2017.

Integration with preventive health care

We integrate smoking cessation into preventive health care, such as cancer screening and chronic disease screening provided by National Health Insurance System.

FOR HEALTHY WORKPLACE

Environment:

No smoking, No harm

We re-addressing tobacco-free hospital promotion by the supervisors at the hospital affairs meeting on April 17, 2018 via the tobacco-free film.

Declaration and promotional film for "No smoking, No harm" by the superintendent and deputy intendent

Report regarding the hospital signing Tobacco-Free Statement on Labor's Day

Tobacco-free line and signs around the hospital campus

The entrance of the gate explicitly informs the public that our hospital is a tobacco-free hospital.

The hospital surrounding is drawn with tobacco-free line.

Education and training

We hold educational training for employees and hospital volunteers every year, and encourage physician and other health education personnel to get qualifications for providing smoking cessation service.

Educational training of smoking cessation for employees and hospital volunteers
